Questions for a Potential Preceptor

**Instructions:** When talking to a potential preceptor it is important to ask them the following questions so that if a clinical contract is required you will have the required information to complete the contract request form.

**Questions for the potential preceptor:**

1. Do you or your organization have a contract template that you are required to use and if you do who should I contact to obtain a copy of the contract template?

2. Do you pay for (provide) your own Professional Liability Insurance or does your organization pay for (provide) Professional Liability Insurance for you?

3. If your organization pays for (provides) Professional Liability Insurance do you care for the organization’s patients in facilities not owned or operated by your organization?

4. Should the University of Arizona Contracts representative contact you to plan for a clinical contract or someone else? If someone else what is their name and contact information.
