#### Exploring Tax Policy to Advance Population Health, Health Equity, and Economic Prosperity: Proceedings of a Workshop—in Brief

On December 7, 2017 the Roundtable on Population Health Improvement held a 1-day, public workshop in Oakland, California to address the use of tax policies to channel resources and shape economic incentives affecting population health. The workshop began with a “tax policy 101” overview. Other presentations and discussion ranged from design of tax policies to advance a range of health and economic goals, to practical conditions that affect the use of tax policy in particular contexts. The workshop rapporteurs have prepared this proceedings as a factual summation of the session discussions.

#### REGISTRATION OPEN: Accelerating Rural Cancer Control (ARCC) Research Meeting May 30-31, 2018, Bethesda, Maryland (NIH Main Campus)

Organized by NCI’s Division of Cancer Control and Population Sciences (DCCPS), the Accelerating Rural Cancer Control Research (ARCC) Meeting aims to identify gaps in rural cancer control research and practice, to build partnerships across various stakeholder groups to address challenges and disseminate solutions, and to highlight and identify approaches to address shared and competing priorities of providers, health systems, researchers, patients, and communities.

#### NIMHD’s 2018 Health Disparities Research Institute Accepting Applications June 23 - 27, 2018, Bethesda, Maryland (NIH Main Campus)

The National Institute on Minority Health and Health Disparities (NIMHD) will host the Health Disparities Research Institute (HDRI) to support the research career development of promising minority health/health disparities research scientists early in their careers and stimulate research in the disciplines supported by health disparities science. The program will feature lectures on minority health and health disparities research, small group discussions, mock grant review, and seminars.

#### Cancer Prevention & Control Research Network (CPCRN) Interactive Partnership Analysis Tool

The [Cancer Prevention and Control Research Network](#) (CPCRN) is a national network (supported by CDC and NCI) of academic, public health, and

## RESEARCH NEWS

community partners who work together to reduce the burden of cancer, especially among those disproportionately affected. Last year, an analysis was conducted to help map the areas of expertise for members of the CPRN. The results of this analysis is presented on the CPRN website and can be used to identify potential areas for collaboration with CPRN investigators and team members related to cancer control and implementation science. The link to the interactive analysis can be found here:

<http://cpcrn.org/about/cpcrn-areas-of-expertise-stakeholder-analysis/>.

**HSI Designation Impacts UA Research Mission**  
As announced by UA President Robert C. Robbins and previously noted in *The Current*, the University of Arizona has been named a Hispanic-Serving Institution (HSI) by the US Department of Education. This designation has important benefits for UA research programs as many federal agencies have specific funding opportunities oriented toward broadening participation in research and STEM education targeted to institutions who are designated as minority serving. This edition of *The Current* contains listings for open and anticipated (previously released but not yet open) research funding opportunities now open to UA as a result of the HSI designation. Annually in the summer, Lewis-Burke Associates, LLC assembles an overview of federal funding opportunities specifically available to Hispanic-Serving Institutions or specifically in support of minority students. Access the June 2017 Analysis with a free UA Box Account (NetID login). Contact RDS with questions or for additional details.

### **RDS NIH Rigor & Reproducibility Webinar now online**

Presented by Jamie Boehmer, Ph.D., Research Development Services, this webinar provided an overview of the NIH Rigor and Reproducibility requirements and how to successfully craft your

application to best address the individual components. Download the webinar and/or slides with a free UA Box account (NetID login)

### **Notice of Technical Assistance Webinar for RFA-HL-19-014:**

Stimulating T4 Implementation Research to Optimize Integration of Proven-effective Interventions for Heart, Lung, and Blood Diseases and Sleep Disorders into Practice (STIMULATE) (NOT-HL-18-605)

National Heart, Lung, and Blood Institute

### **Do Reviewers Read References? And If So, Does It Impact Their Scores?**

In March 2017, we wrote about federal funders' policies on interim research products, including preprints. We encouraged applicants and awardees include citations to preprints in their grant applications and progress reports. Some of your feedback pointed to the potential impact of this new policy on the peer review process.

<https://nexus.od.nih.gov/all/2018/03/30/do-reviewers-read-references-and-if-so-does-it-impact-their-scores/>

### **New NIH Resources**

### **Looking for a NIH Program Official in Your Research Area?**

For years researchers have used the Matchmaker feature in NIH RePORTER to identify NIH-funded projects similar to their supplied abstracts, research bios, or other scientific text. Matchmaker was recently enhanced to make it just as easy to identify NIH program officials whose portfolios include projects in your research area. Continue reading → <https://nexus.od.nih.gov/all/2018/04/16/looking-for-a-nih-program-official-in-your-research-area/>

## RESEARCH NEWS

### “Cover Letters and their Appropriate Use” Podcast Now Available

Ever wonder what you should and shouldn't put in a grant application cover letter? Dr. Cathleen Cooper, director of the Division of Receipt and Referral in NIH's Center for Scientific Review, explains just that in the latest addition to our “All About Grants” podcast series – “Cover Letters and Their Appropriate Use”.

<https://nexus.od.nih.gov/all/2018/04/16/cover-letters-and-their-appropriate-use-podcast-now-available/>

### UA Hispanic Center of Excellence

The University of Arizona Health Sciences (UAHS) - Hispanic Center of Excellence (HCOE) is very interested in increasing access to health-related research that contributes to improve the health of Arizona's Hispanic/Latino population. For this purpose, HCOE's website (<https://hispanichealth.arizona.edu/>) recently added a Spanish language tab – *Estudios de Investigación*--- that will facilitate promotion of research studies among potential subjects who prefer to communicate in Spanish.

We are inviting you to send us information about your research studies that seek to recruit Spanish-speaking participants. We will promote your studies –at no cost to you-- through our website as well as through our extensive network of community collaborators and partner organizations. Specifically, we would like to receive the following information about your project:

Copy of the study's abstract (in English)

- Informational flyers or other written material in Spanish describing the project to a lay audience
- Contact information for potential participants who would like to enroll
- Promotional videos or any other materials that may help recruit Spanish-speaking participants

- Any other information or materials that would help us to promote your study
- Please send materials and information to Dr. Viridiana Johnson at [viridianaj@medadmin.arizona.edu](mailto:viridianaj@medadmin.arizona.edu). For questions about this project, you can also contact Laurie Soloff at [lsoloff@medadmin.arizona.edu](mailto:lsoloff@medadmin.arizona.edu).

## Funding Opportunities

### New RFAs from NIH

**Improving Patient Adherence to Treatment and Prevention Regimens to Promote Health (R01 Clinical Trial Optional)**

<https://grants.nih.gov/grants/guide/pa-files/PA-18-722.html>

**Improving Patient Adherence to Treatment and Prevention Regimens to Promote Health (R21 Clinical Trial Optional)**

<https://grants.nih.gov/grants/guide/pa-files/PA-18-723.html>

**2018 Call for Proposals: Evidence for Action: Matching Service Robert Wood Johnson Foundation | Application Deadline: April 26, 2018, 3:00 p.m. ET**

The goal of this effort is to catalyze research partnerships that result in rigorously designed studies that could be funded by Evidence for Action (E4A), another Robert Wood Johnson Foundation (RWJF) program, or other funding source. We are particularly interested in matching organizations that do not have a track record of RWJF funding. To achieve this goal, E4A will support a “matching team” overseen by a grantee organization that meets the eligibility criteria noted below. The grantee's primary role will be to link organizations working in and with communities with strong research partners to rigorously evaluate the health impacts of program or policy interventions. Organizations working in and with communities may include health care providers, nonprofits,

## RESEARCH NEWS

community-based organizations, and social service or government agencies, which have the infrastructure to implement initiatives but limited research capacity for scientifically rigorous evaluation of their impact. [For more information and to apply.](#)

### **Applications Open in April 2018 for Kresge's Emerging Leaders in Public Health Initiative** **Application Deadline: April 30, 2018, 5:00 p.m. ET**

The Kresge Foundation is partnering with the University of North Carolina Gillings School of Global Public Health (UNC) to recruit and select 20 teams for the third cohort of Emerging Leaders in Public Health (ELPH). ELPH is a leadership development initiative aimed at providing local, governmental public health leaders with the knowledge and skills to lead in today's changing health care environment. Each team will focus on the development and implementation of a "transformative concept" that shifts or expands the role of their local health department in the community and translates into sustainable change. [For more information and to apply.](#)

### **NEH Awards for Faculty at Hispanic-Serving Institutions**

This program supports individual faculty or staff members at Hispanic-Serving Institutions pursuing research of value to humanities scholars, students, or general audiences. Awards are designed to be flexible, allowing applicants to define the audience, type of research, award periods, and administrative arrangements that best fit their projects. *Full proposal anticipated due April 2019.*

[Full Details](#)

### **HHS Health Promotion and Disease Prevention Research Centers**

Will provide funding to academic research centers to participate in the network of Health Promotion

and Disease Prevention Research Centers (PRC Network). Letter of Inquiry due 05/25/2018.

[Full Details](#)

### **APR 30, 2018**

#### **NIH Team-Based Design in Biomedical Engineering Education (R25)**

UA may submit one application.

[Contact RDS to apply](#)

#### **The Paul Teschan Research Fund of Dialysis Clinic, Inc., offers grant support for research about kidney disease.**

UA may submit three applications per round.

[Contact RDS to apply](#)

### **JULY 05, 2018**

#### **The William T. Grant Scholars Program**

UA may nominate one applicant per college. The program supports career development for promising early-career researchers, awarding \$350,000 for five-year research and mentoring plans that significantly expand junior researchers' expertise in new disciplines, methods, and content areas.

[Contact RDS to apply](#)

#### **Russell Sage Foundation: Integrating Biology and Social Science Knowledge (BioSS)**

The initiative will support innovative social science research on social and economic outcomes that improves our understanding of the interactive mechanisms by which environmental influences affect biological mechanisms, and vice versa. Required Letter of Inquiry due 05/24/2018. [Full Details](#)

#### **Notice of Technical Assistance Webinar for RFA-HL-19-014:**

Stimulating T4 Implementation Research to Optimize Integration of Proven-effective Interventions for Heart, Lung, and Blood Diseases and Sleep Disorders into Practice (STIMULATE) ([NOT-HL-18-605](#))

National Heart, Lung, and Blood Institute

### Honors & Awards

Congratulations to **Judith Berg** who received the Mentoring Award at the Western Institute of Nursing's 48th Annual Communicating Nursing Research Conference.

Congratulations to **Janice Crist** who was selected by the Executive Board of the Beta Mu Chapter for the Leadership Award! The award ceremony was April 22, 2018.

Congratulations to **Usha Menon, Charles Downs,** and **Sheila Gephart**, along with Elizabeth Cohn (Hunter-Bellevue) and Jennifer Kue (Ohio State University) who were selected to present a synthesis paper at the Council for the Advancement of Nursing Science's (CANS) 2018 State of the Science Conference, September 13-15, 2018 in Washington, D.C.

Congratulations to **Mary O'Connell** for being selected as a Tucson Fabulous 50 Nurse for 2018! She will be recognized during the Tucson Nurses Week Foundation Gala.

Congratulations to **Leah Stauber** who was accepted to the Mind & Life Institute's Summer Research on "behavioral science, neuroscience, clinical science and the humanities, based on a process of inquiry, dialogue and collaboration with contemplative practitioners and scholars. The long-term objective is to advance the training of a new generation of interdisciplinary scholars interested in exploring the influence of contemplative practice on mind, behavior, brain function and health, including

the potential role of contemplative methods in shaping and enriching human experience and consciousness." Participation in the Institute allows for application to the Francisco J. Varela (\$15k) grant for new investigators who are developing science, at an intersection with the humanities, that engages contemplative practice and human experience.

Congratulations to **Ruth Taylor-Piliae** who was selected by the Executive Board of the Beta Mu Chapter for the Excellence in Research Award! The award ceremony was April 22, 2018.

### Funding & Awards

**\*\*4 grants funded since 3/01/18\*\***

#### Funded since 3/01/2018

1. **Badger, T.A., Sikorskii, A.** (2018) Title: Post Chemo-therapy Symptom Management: Testing Intervention Sequences in a SMART Design Period of Performance. Agency: NCI
2. **Carrington, J., Forbes, A., Jansen, P., Surdeanu, M.** (2018) Title: Enhancing Decision-Making via Augmented Communication Tools. Agency: Tech Arizona
3. **Downs, C.,** (2018) Title: Using Proteomics to Develop Personalized Health Strategies to Prevent Lung Injury in Model Systems. Agency: NINR
4. **Ojo, A. (PI), Szalacha, L.** (2018) Title: University of Arizona-Banner Health All of Us Research Program. Agency: NIH
